## SUMMARY

I am a highly motivated, self driven web developer with skills in technologies such as Python, Django, JavaScript, Ruby, Postgresql, MongoDB, Node.js, Git among others.

I favour standards based development and follow a disciplined approach to programming. I take pride and ownership in the products I work. I constantly work hard on upgrading my skills and knowledge in my area of expertise. I try to be platform/Language/framework agnostic due to which I am able to pick up technologies pretty quickly and get productive in short time.

---

## EDUCATION

**B.E Civil Engineering**  
*Birla Institute of Technology, Mesra*

*Sep 2012*

---

## CAREER HISTORY

**Software Engineer**, *Changer, Pune*

*Feb 2013 - Present*

- Full time developer building Socialschools(<http://socialschools.nl>) which is a safe and secure Social Network committed to improve the communication and lives of people involved in Schools. I lead the Frontend Development of Socialschools along with work on the backend layers (mostly Django/Postgres). I also take care of any websites/CMS that is built for Socialschools.
- Along with Socialschools, I am the Lead developer for our service based offerings based on Django and Django-cms.
- I enjoy problem solving and both of the above products give me enough opportunities to do so.

**Freelance Web Developer**, *gadgetizor.com and digitizor.com*

*Summer 2011 - Jan 2013*

- Worked on the design and scaling of wordpress based high traffic sites mentioned above.

**Chrome Extension Developer**, *Worked on a E-Commerce based Chrome Extension and a official extension of Coderwall.com [coderwall.com/api](http://coderwall.com/api)*

*Sep 2012-Nov 2012*

- Developed a full stack e-commerce based chrome Extension.
- Developed the Official Chrome Extension for Coderwall.com.
